ABOUT

Hello, I'm Glenn! A passionate, self-driven web developer eager to create engaging, user-friendly websites. Known for strong work ethic, attention to detail, and collaboration, I'm ready to apply my skills, grow professionally, and make a meaningful impact.

WORK

August 2025 - Present

Pixel Pulse News
(Lead Web Developer)

- Started as Intern; promoted to Lead Developer to oversee all front-end and back-end web projects.
- Built and maintained a fully responsive STEM education and news platform using React, TypeScript, Next.js, and Tailwind CSS.
- Led a team of developers in refactoring code, implementing scalable architecture, and adopting modern tools to improve performance and maintainability.
- Optimized automated CI/CD workflows with Vercel and GitHub Actions, streamlining deployment and reducing manual overhead.
- Collaborated with design and content teams to deliver engaging, accessible digital experiences for a diverse STEM audience.

March 2025 - Present

Self-Directed Learning & Project Development

- Completed advanced coursework and earned multiple certificates on freeCodeCamp and Codecademy.
- Engaged with online developer communities.
- Built a personal portfolio and developed real-world projects and tools.

August 2025 - Present

STEMPLORE by STEM For Others
(Web Developer)

- Contributed to developing the front-end using React, TypeScript, and Tailwind CSS.
- Collaborated effectively with a team of developers on features and projects.
- Managed version control and codebase using Git and GitHub.
